# ★ Looking for a transferee for our international patents!★

Based on the concept of "weather forecasting x health measures x AI processing" to combat global warming and climate change, which is currently attracting attention, we have obtained a Japanese patent and will transfer the usage rights of the US and Chinese patents to companies in each country. (Exclusive rights until August 2039)

**SDGs Climate Change X Health Care Information System** Japan,US, pateted ChinaPending

W a HMA® Patented Concept

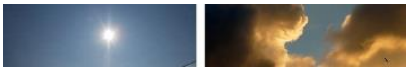
Weather and Health Mobile Applications

KOBAYA Co Ltd(Japan name; 日曜発明ギャラリー)

URL; https://www.kobaya-co.jp

■We will develop an advertising and promotional app for weather-related healthcare products tailored to each country. Related business development is possible.

Long-term climate change



Weather forecast by region (one week)

Weather forecasting companies (located in each country) (e.g. Japan, Weathernews Inc etc.)

Check QRcord or Ean cord

UV measures products

UV Cosmetics

Heat measures products

Cooling products

Air pollution control products

Pollen,PM2.5 Protect

KOBAYA Co Ltd Owned Patents

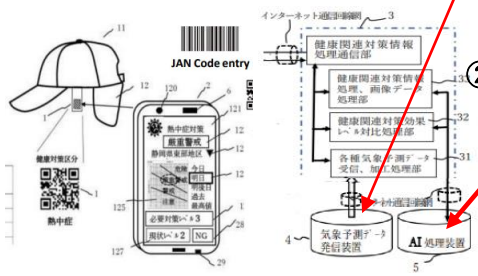
JP Patent ; No. 6793301

PCT Int Patent ; PCT / JP2020 / 027960

① Weather Forecast API connection

② Personalized data

③Raising awareness through AI processing Suggested measures



Medical information DB Healthcare product DB

① ＋② ＋ ③ patent rights held for 20 years

■Link to detail（Japanes＆English）

It will be a powerful promotional tool for your company's products. Or these companies will pay you

We have established exclusive rights to an app that displays weather information on health factors by country and region, measures, alert information, and suggests preventive measures through AI processing, as well as recommending products.
